

Ohmsett Staff to Exhibit at the Clean Pacific Conference & Exhibition

LEONARDO, NJ – [Ohmsett](#), The National Oil Spill Response Research & Renewable Energy Test Facility will exhibit at the Clean Pacific Exhibition June 21-23 at The Conference Center – Washington State Convention Center in Seattle, Washington. CLEAN PACIFIC covers spill prevention & response for marine, inland waterways, rail and pipeline. It provides a forum for stakeholders involved in Government, Environmental, Emergency Planning and Response to discuss lessons-learned, hear best practices, and view new products and solutions from a variety of companies.

Ohmsett will be in Booth 411 on the exhibit floor providing visitors with information on Ohmsett's mission to increase oil spill response capability through independent and objective performance testing of equipment. As our special guest, we have arranged for you to attend the [Clean Pacific](#) Exhibition at no cost! To take advantage of this offer simply [register online](#) using the VIP code OHMS16. Make sure to stop by Booth 411 to discuss your testing requirements and meet our new Program Manager, John Delia.

###

Ohmsett, The National Oil Spill Response Research & Renewable Energy Test Facility, is one of the largest outdoor saltwater wave/tow tanks in North America and is designed to evaluate the performance of full-scale and meso-scale equipment under realistic but safe environmental conditions. The facility, managed by the U.S. Department of Interior's Bureau of Safety and Environmental Enforcement (BSEE) and operated by MAR, Incorporated, is located at the Naval Weapons Station Earle Waterfront in Leonardo, New Jersey (about one hour drive south of New York City).
