

Ohmsett Staff to Exhibit at the Clean Gulf Conference & Exhibition

LEONARDO, NJ – [Ohmsett](#), The National Oil Spill Response Research & Renewable Energy Test Facility will exhibit at the Clean Gulf Conference & Exhibition November 2-3, 2016 at the Tampa Convention Center in Tampa, Florida. Clean Gulf will present discussions on solutions for inland, offshore, and coastal spill preparedness and response. It provides a forum for stakeholders involved in Government, Environmental, Emergency Planning and Response to discover best practices, hear about lessons-learned, and view new products and solutions from a variety of companies.

Ohmsett will be in Booth 311 on the exhibit floor providing visitors with information on Ohmsett's mission to increase oil spill response capabilities through independent and objective performance testing of equipment. As our special guest, we have arranged for you to attend the Clean Gulf Exhibition at no cost! To take advantage of this offer simply [register online](#) using the VIP code OHMS16. Make sure to stop by Booth 311 to discuss your testing requirements and meet our new Program Manager, John Delia.

###

Ohmsett, The National Oil Spill Response Research & Renewable Energy Test Facility, is one of the largest outdoor saltwater wave/tow tanks in North America and is designed to evaluate the performance of full-scale and meso-scale equipment under realistic but safe environmental conditions. The facility, managed by the U.S. Department of Interior's Bureau of Safety and Environmental Enforcement (BSEE) and operated by MAR (MD) LLC, is located at the Naval Weapons Station Earle Waterfront in Leonardo, New Jersey (about one hour drive south of New York City).
