

Ohmsett Staff to Exhibit at the Clean Pacific Conference & Exhibition

LEONARDO, NJ – [Ohmsett](#), The National Oil Spill Response Research & Renewable Energy Test Facility will exhibit at the Clean Pacific Conference & Exhibition June 19-21, 2018, at the Oregon Convention Center in Portland, OR.

Clean Pacific will focus on spill prevention and response for oil and hazardous materials in the marine and inland environment. Stakeholders from government, environmental, emergency planning and emergency response industries will come together to discuss lessons-learned, hear best practices, and view new products and solutions from a wide-variety of companies.

Ohmsett will be in Booth 213 on the exhibit floor providing visitors with information about its mission to increase oil spill response capabilities through independent and objective performance testing of equipment and providing realistic training for response personnel. As our special guest, we have arranged for you to attend the Clean Pacific Exhibition at no cost! To take advantage of this offer simply [register online](#) using the VIP code EXHFP18. Make sure to stop by Booth 213 to discuss your testing or training requirements.

###

Ohmsett, The National Oil Spill Response Research & Renewable Energy Test Facility, is one of the largest outdoor saltwater wave/tow tanks in North America and is designed to evaluate the performance of full-scale and meso-scale equipment under realistic but safe environmental conditions. The facility, managed by the U.S. Department of Interior's Bureau of Safety and Environmental Enforcement (BSEE), is located at the Naval Weapons Station Earle Waterfront in Leonardo, New Jersey (about one hour drive south of New York City).
